

PENIS NEOPLASM

Procedure: Wide local excision
 Partial penectomy
 Total penectomy
 Other: _____

Foreskin: Present
 Not identified
 Cannot be determined

Tumor Site: Glans
 Foreskin mucosal surface
 Foreskin skin surface
 Coronal sulcus
 Shaft
 Other: _____

Tumor Size (greatest dimension): _____ cm

Histologic Type: Squamous cell carcinoma, usual type
 Verrucous carcinoma
 Warty carcinoma
 Papillary squamous carcinoma
 Basaloid squamous carcinoma
 Warty-basaloid carcinoma
 Sarcomatoid carcinoma
 Other: _____

Histologic Grade: Well-differentiated (G1)
 Moderately-differentiated (G2)
 Poorly-differentiated (G3)
 Other: _____

Depth of Invasion (absolute*): _____ mm

**Depth of involvement should be measured in mm from the nearest dermo-epidermal junction to the deepest extent of tumor. For a verrucous carcinoma, it can be measured from the nearest nonkeratotic surface to the deepest extent of tumor.*

Penile Intraepithelial Neoplasia (PeIN):	Present	Absent	N/A
Lymphovascular Invasion:	Present	Absent	
Perineural Invasion:	Present	Absent	
Margin Status:	Positive	Negative	

Extent of Primary Tumor:

No evidence of primary tumor (pT0)

Carcinoma in situ (pTis)

Noninvasive localized squamous cell carcinoma (pTa)

Tumor invades subepithelial connective tissue (i.e., lamina propria, dermis, dartos fascia, etc.) without lymphovascular invasion or perineural invasion and is not high-grade (i.e., G3 or sarcomatoid) (pT1a)

Tumor invades subepithelial connective tissue (i.e., lamina propria, dermis, dartos fascia, etc.) with lymphovascular invasion and/or perineural invasion or is high-grade (i.e., G3 or sarcomatoid) (pT1b)

Tumor invades corpus spongiosum with or without urethral invasion (pT2)

Tumor invades corpus cavernosum with or without urethral invasion (pT3)

Tumor invades into other adjacent structures (pT4)

Lymph Node Status:

Not assessed

No lymph node metastasis (pN0)

Two or fewer unilateral inguinal lymph node metastases without extranodal extension (pN1)

Three or more unilateral inguinal lymph node metastases without extranodal extension (pN2)

Extranodal extension of lymph node metastases and/or pelvic lymph node metastases (pN3)

Number (fraction positive): _____ / _____

Site (s):

Size of largest positive lymph node: _____ cm

Extranodal extension: Present Absent N/A

Distant Metastasis:

Not assessed

Distant metastasis (pM1)
