

Objectives

Education credit is being provided through the Michigan Association of Blood Banks who is approved as a provider of continuing education in the clinical laboratory sciences by the ASCLS P.A.C.E.® Program.

Objectives: At the end of the session the participant will be able to:

1. Describe problem resolution steps for positive DAT's.
2. Apply problem solving strategies to events that occur in the blood bank.
3. Describe the knowns and unknowns for platelet transfusion.
4. Discuss the hurdles involved in implementing a Patient Blood Management Program.
5. Describe how thromboelastography is used in liver transplants.
6. Evaluate statistics presented in papers and product literature.
7. Evaluate options in providing blood components to patients with complex blood needs.
8. Develop a process for remaining compliant with new requirements.

Planning Committee

Suzanne Butch, MA, MLS(ASCP)^{CM}SBB, DLM
