**Usha Kota**

**Kristina Martin**

**Duane Newton**

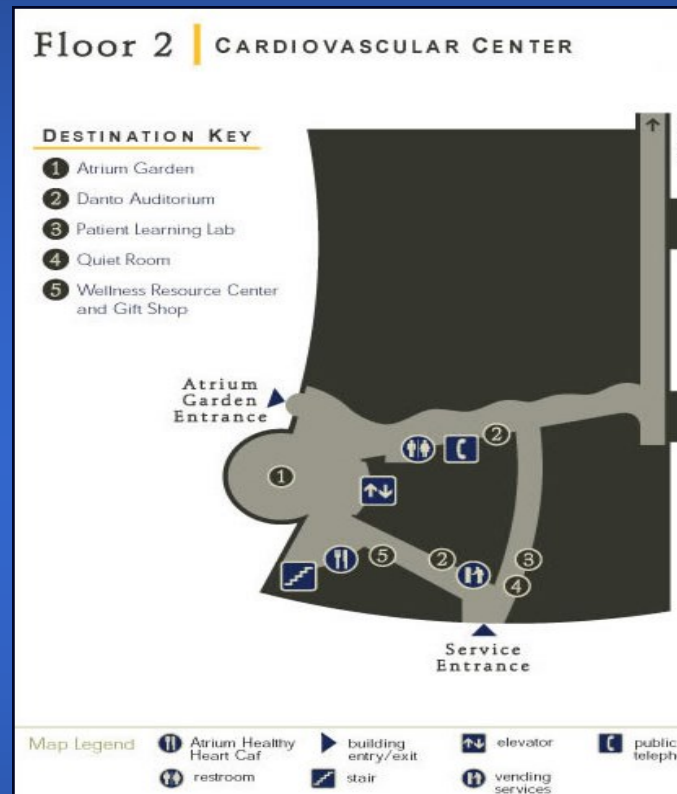

**Jill Russell**

**Lina Shao**

**Carol Young**

**Pam Warwashana**

**Cathy White**

## **7th Annual Clinical Pathology Symposium**

**MICHIGAN MEDICINE**  
UNIVERSITY OF MICHIGAN

**April 24, 2017**

**Danto Auditorium**

7<sup>th</sup> Annual

## Clinical Pathology Symposium

Monday, April 24, 2017

- ◆ *Cardiovascular Center Danto Auditorium*
- ◆ *For Pathology faculty and staff*
- ◆ *Easy M Learning registration. Check with your supervisor first.*
- ◆ *Attend one or more sessions*
- ◆ *Earn up to 3 CE credits One CE credit per session*
- ◆ *Refreshments provided*
- ◆ *Plan to Participate!*

7:00 am

### Are You Safe?

#### Michele McGee, BS, MT(ASCP)

Medical Technologist Specialist and Safety  
Coordinator, Microbiology Laboratory

#### Objectives

1. Identify Safety Hazards in the Laboratory.
2. List at least three safety requirements.
3. Match safety acronyms to their meaning.

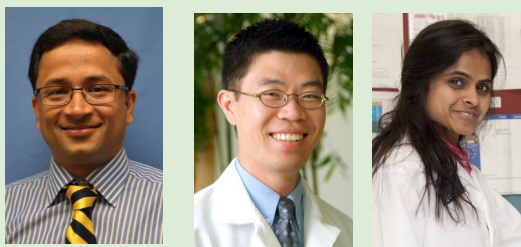

M Learning Code: PATH-62109

MICHIGAN MEDICINE  
UNIVERSITY OF MICHIGAN

8:05 am

### The Role of Viscoelastic Testing in the Perioperative Setting

#### Subramanian Sathiskumar, MD

Assistant Professor Department of Anesthesiology  
Director Transplant Anesthesia

#### Shih-Hon (Sean) Li, MD, PhD

Clinical Assistant Professor of Pathology  
Medical Director, Blood Bank and Immunohematology  
Reference Laboratory  
Assistant Medical Director, Clinical Coagulation Laboratory

#### Priti Patel, MT(ASCP)

Senior Clinical Technologist, Hematology Laboratory

#### Objectives

1. Understand the role of the hematology lab in implementation and oversight of viscoelastic (ROTEM) testing in point of care and central lab settings.
2. The role of ROTEM in patients with end stage liver failure undergoing liver transplant and the potential benefits with case studies
3. The impact observed in the blood bank due to viscoelastic testing performed for OR/ICU patients

M Learning Code: PATH-62110

9:10 am

### Inaugural John Batsakis Lecture

### Improved Quality, Patient Care and Experience at a Lower Cost: The Promise of Optimized Laboratory Stewardship

#### Gary Procop, MD, MS

Medical Director for Enterprise Test Utilization and  
Pathology Consultative Services.  
Director of Molecular Microbiology, Virology, Mycology and  
Parasitology, Cleveland Clinic Foundation

#### Objectives

1. Describe the components necessary for the development of an effective test utilization committee.
2. Recall the advantages and disadvantages of using clinical decision support tools.
3. List three interventions to improve the utilization of high-cost molecular genetic testing.

M Learning Code: PATH-62111
