

6th Annual Retreat
May 24, 2023
Biomedical Science Research Building
Kahn Auditorium

- 1:30 pm - Introduction by co-directors
Andrew Lieberman, MD, PhD, Professor of Pathology and Zaneta Nikolovska-Coleska, PhD, Associate Dean for Graduate and Post-doctoral Studies, and Professor of Pathology
- 1:30 pm - Jessica Teitel
Molecular & Cellular Pathology candidate and TPTR alumni
“Cellular Calamity: Inducing Mitotic Catastrophe through Unconventional ERK2 Inhibition”
- 1:50 pm - Nicole Cady
Microbiology & Immunology candidate and TPTR trainee
“Resistant starch-based therapeutic strategies to modulate GI inflammation: modeling host-microbe interactions in the intestinal epithelium”
- 2:10 pm - Thad Kunkel
Molecular & Cellular Pathology candidate and TPTR alumni
“Epigenetic dysregulation underlies impaired differentiation of oligodendrocytes lacking NPC1”
- 2:30 pm - Miranda Walker
Neuroscience candidate and TPTR trainee
“Human embryonic stem cell-derived models of PCDH19-Clustering Epilepsy”
- 2:50 pm - 10-minute break
- 3:00 pm - Lauren Smith, MD
Professor of Pathology
Director of Hematopathology
“Research Ethics: Authorship, Industry, and AI”
- 3:45 pm 15-minute break with refreshments in the BSRB seminar room
- 4:00 pm **Keynote speaker**
Kojo Elenitoba-Johnson, MD
James Ewing Alumni Chair of Pathology
Memorial Sloan Kettering Cancer Center,
Professor, Graduate School of Biomedical Sciences
Gerstner Sloan Kettering Graduate School
“Lost in Ubiquitylation, Found by Mass Spectrometry: Novel Mechanisms in Proteolytic Lymphomagenesis”

Thank you for joining us for the 6th Annual TPTR Retreat!
